Building a multi-million dollar business with only \$37.00 capital is impossible. To even hope of succeeding with a process that four other companies tried and failed is impractical. But this man did it, because he found the right answer to business success. God Owns My Business is the amazing biography of a man who built the first business of its kind ever to succeed in the United States. Initially, Stanley Tam went broke-just like his predecessors. Obviously, he needed a business consultant. He found the very best available. In the book, Tam tells the secrets of success that God shared with him. Solutions that will work for you too, whatever type of business, whatever problems you are facing, here's the answer. Mr. Tam has traveled across the United States and over 35 foreign countries, telling thousands the secrets of success God has taught him. Many people have tried them and they really work. Life, which was a perpetual series of crises, can be tranquil, full of joy and a financial success. Read how. 152 pages, paperback
